

This Autumn Day

Walk away
Close the chapter of your life
And turn the page
This Autumn Day

It is waiting for you
With reds and golden light
And sinking suns
This Autumn Day

It is ready to take you to tomorrow
It is ready to walk by you

Burning out old
Fall to the earth
Time to let go now
Changing your dreams
Changing your heart
Making it new

Walk away, little darlin'
Feel the wind upon your face
Feel the cracked earth underneath
your footsteps
A new path up ahead
Gone away is the heartache
Laid to rest all your regrets
And the smoked-out dreams of
yesterday
Are ashes on the earth

Walk away
Taking one last look behind you
Say Goodbye
This Autumn Day

It is waiting for you
With reds and golden light
And auburn skies
This Autumn Day

It is ready to take you to tomorrow
It is ready to walk by you

Burning out old
Fall to the earth
Time to let go now
Changing your dreams
Changing your heart
Making it new

Walk away, little darlin'
Feel the wind upon your face
Feel the cracked earth underneath
your footsteps
A new path up ahead
Gone away is the heartache
Laid to rest all your regrets
And the smoked-out dreams of
yesterday
Are ashes on the earth

This Autumn Day
Is waiting for you
It's Calling you
This Autumn Day
